

Goals for Instructional Program

0210

The Board of Education of the Hicksville Union Free School District, establishes the following goals for its instructional program:

1. to install in students basic skills as well as the knowledge, attitudes and habits that will allow them to adopt, adapt and utilize these skills in the everchanging environment;
2. to challenge each student while minimizing failure. Everyone willing to make the effort to work and learn should be able to achieve a certain measure of success;
3. to develop an educational program that is comprehensive and involves input from all groups within the school community, especially administrators, staff, parents, and students; and
4. to create a learning process that emphasizes human worth, recognizes individual differences, and incorporates real and relevant experiences that students may identify with and learn from.
