

The Board of Education desires community use of school facilities insofar as is feasible without interfering with the regular school program or school-related activities. Such use must be limited to the activities approved under state law.

Activities will be permitted which are educational, cultural, social, recreational, or civic in nature and which are nonsectarian, nonpolitical, and nonexclusive, and which are primarily for the benefit of community residents.

School facilities are not available for commercial use.

Permission to use the schools, with or without charge, during assigned hours may be granted by the superintendent or his/her designee upon written request.
